Center for Interactive Learning and Collaboration (CILC)	http://www.cilc.org	The Center for Interactive Learning and Collaboration provides services that help develop, support and evaluate video distance learning programs and community projects to maximize learning. CILC's website provides access to engaging interactive videoconferencing content and professional development programs, collaboration opportunities, and site directories.
SOCRATES Technology Integration Community	http://sites.google.com/site/socratestechnologyintegration/	<i>A portal to technology resources available at little or no cost. The focus for the 2010-11 school year is on video conferencing where classrooms can interact with professionals at NASA, Sea</i>
Tandberg – Connections Program	http://www.tandberg.com/	TANDBERG knows that visual engagement and interaction with students results in higher order thinking, increased motivation and improved learning. Imagine connecting with museums around the world, seeing the bones of prehistoric dinosaurs, creating your own music or becoming the scientist and defining matter— without ever leaving your classroom.
National Aeronautics and Space Administration (NASA)	http://www.nasa.gov	NASA's Digital Learning Network™ is about connecting with the next generation of Explorers. Free, interactive programs allow educators and students to learn more about our home planet and the universe beyond through video-conferencing and webcasts. Students of all ages can participate in live events featuring NASA experts and education specialists.
National Park Service	http://www.nps.gov See be	The following parks offer distance learning programs that may allow them to share curriculum-based programming about the park with your students through the web, audio or video conferencing. Contact the park for details. Specific National Parks which offer Video Conference services include: Bad Lands South Dakota, Bering Land Bridge National Preserve, USS Arizona Memorial, Conference Topics from the Bering Land Bridge, Brown v. Board of Education, National Historic Site, Ellis Island, Homestead National Monument, The GRAND Canyon, Mount Rushmore, and Nicodemus National.
(MAGPI) Mid-Atlantic Gigapop in Philadelphia for Internet2	http://www.magpi.net/	MAGPI is an Internet2 Research & Education Network Member. K12 students and teachers are creating unprecedented opportunities for inquiry-based learning by expanding the geographic boundaries of their classrooms—virtually and cost effectively. K12 schools on the MAGPI network participate in interactive video exchanges in real-time— with their students' peers, content providers or experts from anywhere in the world. They have access to more than 100 MAGPI-produced interactive video programs each year.

The following parks offer distance learning programs that may allow them to share curriculum-based programming about the park with your students through the web, audio or video conferencing. Contact the park for details. Specific National Parks which offer Video Conference services include: Bad Lands South Dakota, Bering Land Bridge National Preserve, USS Arizona Memorial, Conference Topics from the Bering Land Bridge, Brown v. Board of Education, National Historic Site, Ellis Island, Homestead National Monument, The GRAND Canyon, Mount Rushmore, and Nicodemus National.

MegaDEAFConference 2009

The two-hour program of student-produced presentations included not only KSD and the Ernest C. Drury School for the Deaf in Milton, Ontario, but also the Minnesota North Star Academy, the Montana School for the Deaf and the Blind, and the Ohio School for the Deaf, among others.

Participants were scheduled from 21 states; the District of Columbia; Belfast, Northern Ireland; and West Sussex, England.

MegaDeaf Conference—KSD Danville, KY

The World Equestrian Games Lexington KY

Where In Kentucky –Collaboration via Video Conference with 4th grade/5th grade classes which study Kentucky. Six Schools participated in each conference. Their location was not revealed. By giving clues to their geographic location in the state, researching the clues given by other schools on the video conference and from their studies of Kentucky during the school year, the students were challenged to identify the location of the schools participating in Where in Kentucky.

10 Minutes

Introductions and Instructions

Each site will have 1 minute to introduce their school.

Introductions should be creative AND SHOULD NOT GIVE AWAY YOUR LOCATION!
