

Technology Terminology

Technology Terminology Spring 2016

The majority of these words can be found in the text book or you can **Google** the definition of the word as it applies to technology. During the next two weeks, please define the technology terms which are not known to you. During class on **Tuesday/Thursday Class 1/26 or 1/28** you may ask for assistance with the technology definitions (one word at a time).

Technology Terminology Test will be given in class on **2/4 (T/Th class)** and based on the skill set for mastery for this course, students will: *---Define basic computer terminology*

Mastery on the Vocabulary Quiz will be a quiz score of 90% or above.

Students may retake the Mastery Vocabulary Quiz (not the same version of the quiz) twice to reach the 90% or above score

App	Green computing	QWERTY
Application	hacker	RAM (random access memory)
bluetooth	hard drive	ROM (read only memory)
Browser	hardware	scanner
byte	html	Screenshot/screen capture
CD-ROM	hyperlink	scroll bar
clip art	icon	Search engine
cloud computing	Internet	Server
command	IP address	Smartphone
Communication device	ISP	Social networking site
